DSCR	1.8x	1.9x	2.1x	Above policy

CREDIT VIEW

Serviceability supports a $300,000 RCF increase

WORKING CAPITAL POSITION

Receivables increased during June after component purchases for a new automotive programme. The requested RCF increase bridges supplier payments and first customer receipts without adding a new product.

ITEM	CURRENT	POLICY VIEW
Current ratio	1.6x	Acceptable
Gross margin	28%	Stable
Receivables days	42	Within historical range

CONTRACT PIPELINE

PRIMARY DRIVER

JLR pipeline value referenced by management: $780,000

Management accounts reference an 18-month Jaguar Land Rover supply pipeline valued at $780,000. This figure was prepared before final contract execution and is used as pipeline context, not as the signed contract value.

MANAGEMENT STATEMENT

James Thornfield confirms that Thornfield Precision Engineering Ltd remains current with tax, superannuation, and supplier obligations. No dividend distribution is planned while the RCF increase is under review.
