EXECUTED SAMPLE | 24 JUNE 2026

# Automotive supply agreement

Precision-machined components | 18-month supply programme

## 01 Agreement particulars

| | |
|---|---|
| Supplier | **Thornfield Precision Engineering Ltd** |
| Supplier company number | **08451291** |
| Customer | **Major automotive manufacturer** |
| Contract value, excluding VAT | **£760,000** |
| Term | **18 months** |
| First purchase order window | **Within 10 days of signature** |
| Execution date | **24 June 2026** |

## 02 Scope and delivery

The supplier will manufacture and supply precision-machined components for the customer's automotive production programme. Product specifications, quantities and delivery schedules will be set out in purchase orders issued under this agreement.

The customer will issue the first purchase order within 10 days of signature. The 18-month programme starts on the first purchase order date. The supplier will procure materials and schedule production against the agreed releases.

### Agreed commercial value

The total agreed programme value is **£760,000 excluding VAT**. This executed value takes precedence over earlier opportunity estimates. No additional £20,000 pipeline amount forms part of this agreement.

TERMS & EXECUTION

# Authorised agreement

Agreement dated 24 June 2026 | Supplier copy

## 03 Operating terms

### Purchase orders and payment

Purchase orders will specify unit pricing and release quantities within the agreed £760,000 programme. The supplier will invoice accepted deliveries; payment is due within 30 days of a valid invoice.

### Quality and acceptance

Components must meet the drawings, tolerances and quality requirements agreed in each purchase order. The parties will resolve non-conforming deliveries through replacement or corrective action.

### Changes to the programme

Changes to scope, programme value or delivery timing require written agreement by authorised representatives of both parties. Forecasts alone do not amend the executed value.

### Use in this demonstration

The buyer is intentionally described as “Major automotive manufacturer”. This is a fictional executed sample for the lending flow; it does not represent a contract with a named real manufacturer.

## 04 Acceptance and signatures

The illustrative signatories below accept the supply scope, contract value and 18-month programme described in this agreement.
