FY2024 | UNAUDITED SUMMARY

2024 management accounts

Summary reporting pack for Barclays Business Banking.
Includes a separate June 2026 trading and funding update.

01 Business and reporting basis

Thornfield Precision Engineering Ltd supplies precision-engineered components to the automotive sector. This pack presents the FY2024 management reporting summary and comparative turnover. It is not a set of audited statutory accounts.

Legal entity	**Thornfield Precision Engineering Ltd**
Company number	**08451291**
Reporting period	**Financial year 2024**
Business activity	**Precision engineering**
Lending reference	**RCF-2026-TH-00291**

02 FY2024 operating performance

Summary income statement	GBP
Revenue	**£4,600,000**
Operating costs before depreciation and amortisation	**£3,980,000**
EBITDA	**£620,000**

Operating costs are presented as the balancing aggregate of revenue less EBITDA. EBITDA margin is 13.5%. All amounts are in pounds sterling; summary figures are unaudited.

CREDIT SUPPORTING SCHEDULES

Performance & funding

FY2024 measures with a separately dated forward-looking trading update.

03 Revenue trend and serviceability

FY2022 revenue (rounded)	**£3.9 million**
FY2023 revenue	**£4,180,000**
FY2024 revenue	**£4,600,000**
FY2024 year-on-year revenue growth (rounded)	**10%**
Debt service coverage ratio (DSCR)	**2.1x**
Leverage	**34%**
Current ratio	**1.6x**

Ratios are management-reported lending measures. Comparative FY2022 turnover is shown rounded to one decimal place in millions.

04 Trading update | 20 June 2026

The business is preparing to fulfil an 18-month precision-machined components opportunity for a major automotive manufacturer. The management pipeline valuation is **£780,000**. This is a forward-looking opportunity estimate, not revenue recognised in FY2024.

Existing revolving credit facility	**£200,000**
Additional working-capital headroom requested	**£300,000**
Proposed total revolving credit facility	**£500,000**

Funding is needed within 10 days to support materials and production ahead of the first purchase orders. The final executed agreement is supplied separately; its value should be reconciled to this pipeline estimate during credit review.
